

In 45 Minutes, Kama Scout Hall will become Radioactive!

Your Challenge is this; using materials listed below, construct a structure that will let ALL Scouts survive the Radioactive Blast.

The structure must;

- Hold ALL Scouts a minimum of **30 cm** from the floor.
- Be strong enough to stand for **1 minute** with all Scouts on it.
- No Tables, Chairs, or other fixtures may be used, **ONLY** construction spars and ropes.
- This is a TROOP Challenge; not Patrol based, everyone needs to work together, if one dies; all die!

Good Luck!

Remember; work together or Die!
